

UVLM97-2	<b>Ultra-Lube Acoustic Lubrication Device</b> (complete set)	Complete set voor proactief accoustische smering, inclusief David Clark koptelefoon met 23dB omgevings lawaai reductie, electronica behuizing met instelbare volume controle en Probe Tip Snesor (transducer).		<b>2.031,75 €</b>
GP-001A	<b>Probe Tip Sensor</b> (extra transducer)	Sensor welke ook geleverd wordt met de Ultra-Lube set. Wordt vaak toegepast in situaties waar verschillende soorten vet worden gebruikt.		<b>712,95 €</b>
DCH-001A	<b>Koptelefoon</b>	David Clark koptelefoon met 23dB omgevings lawaai reductie.		<b>287,70 €</b>
YC-001A	<b>"Y" Cable</b> (voor het opnemen naar data collector)	This Y-Cable adapter is used for recording the Ultra-Lube signal into your existing data collector, vibration analyzer or mini disk recorder. The Y-Cable comes with one end with raw wire leads so that adaptation can be made to whichever plug or jack mates.		<b>95,55 €</b>
YC-002B	<b>"Y" Cable</b> (for splicing two headsets together)	This Y-Cable adapter is designed to be used with two headsets. For comparison of sound or equipment, by two individuals, at the same time.		<b>102,90 €</b>
LEP-001A	<b>Pro-Reach Diagnostic Extension Pole, 4ft to 8ft extendable</b> (without extra sensor)	This item provides an excellent way to quickly inspect and diagnose potential problems on bearings, gear boxes, steam traps, etc. Vibration analysts and Lubrication Technicians can both take advantage of having this important tool. The pole can be extended for hard to reach equipment.		<b>213,15 €</b>
DEP-001A	<b>Pro-Reach Diagnostic Extension Pole, 2 1/2" to 4" extendable</b> (without extra sensor)	This item provides an excellent way to quickly inspect and diagnose potential problems on bearings, gear boxes, steam traps, etc. Vibration analysts and Lubrication Technicians can both take advantage of having this important tool. The pole can be extended for hard to reach equipment.		<b>187,95 €</b>
MEP-001A	<b>Mini-Reach Diagnostic Extension Pole, 18 inches</b> (without extra sensor)	This item is similar in style as its bigger brother. Designed specifically for Vibration Analysts and Lubrication Technicians, at only 18 inches in length, it also provides an excellent way to quickly inspect and diagnose potential problems on bearings, gear boxes, steam traps and valves.		<b>154,35 €</b>
PRS-001A	<b>ProReach Stinger</b>	Staninless steel stinger, designed to enhance transmission of sound through Probe Tip Sensor (transducer).		<b>46,20 €</b>
CC-001A	<b>Comfort Covers</b> , pair (black cloth ear seal protector)	These cloth covers fit over each ear pad on the headset. They help keep dust, dirt and grease out of the inner components of the headset. Also handy for issues of hygiene where more than one person may be using equipment.		<b>14,70 €</b>
ES-001A	<b>Ear Seals</b> (foam padded), pair	Replacement ear seals/pads, if needed. Designed with soft foam.		<b>15,75 €</b>
ES-002B	<b>Ear Seals</b> , (gel filled pads), pair	Upgrade from standard ear seals/pads. These are designed with gel filled padding and are extremely comfortable.		<b>34,65 €</b>
